## CORE CURRICULUM - GRADES K-8

The Board of Education believes that the Fremont School should provide educational activities and experiences for students in grades kindergarten through eighth within the scope of a designated core curriculum composed of specific course work in selected content areas. The core curriculum for the Fremont students grades one through eight shall be:

Language Arts
Mathematics
Social Science
Science
Visual and Performing Arts
Personal Health and Fitness
Computer Instruction (grades 5 & 6)
Practical Arts (grade 8)

A plan for the allocated instructional time assigned to each content area of the core curriculum shall be determined each year by the building principal.

Kindergarten should provide an educational setting for five-year old children to develop a cadre of experiences which will help them to:

- Build a healthy self-concept,
- Begin to resolve conflict between self and others, and
- Form attitudes about school and learning that will encourage further learning.
