RELATIONS WITH LOCAL GOVERNMENT

The Fremont Board, as an independent body, has no statutory relationship to other governmental bodies. It will, however, cooperate with other governing agencies, both educational and civic, to serve the best interests of the youth and the citizens of the school district.

While the Board will maintain complete autonomy at all times, it will, in cases where it deems it to be the best interest of the youth and taxpayers of the district, work cooperatively with the agencies in the community.

The school district may provide facilities to such agencies that are responsible for the provision of the public recreational activities. All custodial overtime may be charged to the agency using the facility.

The District will work cooperatively with the elected officer of the City of Fremont to develop comprehensive plans for long-range utilization of resources to the best interest of the residents of the school district and the city. It will participate in the development and maintenance of a comprehensive plan for the best usage of the land and resources of the total Fremont community.

Use of school facilities will be requested through the school Principal on forms developed by the Superintendent or his designee.
