# GUIDANCE PROGRAM

The Guidance Program is an integral part of the educational program and should be available to all students enrolled in the Fremont Public Schools. It shall be the aim and objective of the Board to provide adequate guidance personnel in all the Fremont Schools within the financial constraints of the resources available.

Students should avail themselves of the services available from qualified personnel in the areas of educational, vocational, and life counseling.

For a Guidance Program to become effective, it is necessary that the teachers and counselors recognize the fact that they are within the realm of qualified privilege when a student confides in them. Conferring, counseling, guiding, and advising must be built upon mutual trust.

Each classroom teacher is a counselor; a teacher's recognition of each student's needs is basic in a teaching-learning situation. Elementary building principals will be responsible for maintenance of individual guidance records. Junior High and Senior High Schools have qualified guidance personnel to maintain the necessary records on each pupil.
