RELATIONS WITH PRIVATE SCHOOLS

The Board will cooperate with parochial and private schools, not to include home schools, in matters of mutual benefit where not expressly prohibited by law.

The Superintendent is encouraged to explore areas of mutual benefit with the administrative officers of such schools and to recommend desirable courses of action.

Private school students residing in the Fremont Public School District may, through the private school principal, make application to attend classes in the public school, which are not offered in the private schools and which are considered “non-essential elective courses” as defined in Fremont Board Policy 51A.2b. Part-time enrollment will be permitted as provided by state law, the procedures for which are outlined in the previously referenced policy.

Public school administrators and faculty members shall make every reasonable effort to make dual enrollment convenient for students but without relaxing normal course requirements or standards.

Academic credit shall be made available to all part-time enrolled students for courses satisfactorily completed and arrangements shall be made to transfer credits to the private school from which each student intends to graduate.

It is the policy of the Board of Education of Fremont Public Schools to allow participation in co-curricular, or extra curricular activities only through mutual participation or interlocal agreements entered into by the District and other secondary schools as provided by law, State Board of Education Rules, state laws, and/or regulations of the Nebraska Student Activities Association.
