DEVELOPING, APPLYING, AND CONTROLLING THE BUDGET

The Superintendent shall present annually at a meeting of the Board, a detailed budget for the ensuing year including estimated income and expenditures and an exhibit showing the amounts budgeted the immediate previous year. Such budget will consider inventories, current needs, and desirable improvements or expansion or plant or services. Said budget shall be considered by the Board, with suggestions for alterations and provisions.

The budget shall be made ready for Public Hearing, with final adoption occurring within timelines as established by State law.
