# MUSICAL INSTRUMENTS

Students will generally be expected to furnish their own musical instruments for instruction and activities. However, in order to maintain the quality of music program desired, the Board of Education recognizes the need for the school to purchase, maintain, and issue those instruments which the individual student could not reasonably be expected to own.

The Superintendent of Schools, or his/her designee, will develop rules and regulations by which instrumental music instruments that have been purchased by the Fremont Public Schools will be rented to students.

**Adopted: November 9, 1987**

## MUSICAL INSTRUMENTS

Repair costs for damages to the instrument are a responsibility of the student unless the damage is from sources other than the renter. In this case, the damage must be reported to the school officials immediately along with reasonable proof that the damage was not a result of renter negligence.

The rental fee will be waived if the student owns an instrument, but is playing a school-owned instrument at the request of the instructor.
