STUDENT CONTESTS

A non-profit organization sponsoring a contest for student participation may, upon the Superintendent's approval, send the explanatory materials to the Administration Office for distribution.

The Superintendent and/or his designee will develop rules and regulations concerning the circumstances under which Fremont School students will enter contests sponsored by non-school organization.

School personnel will post the materials accessible for students to read. They will not promote, encourage, or discourage student participation. Students may not use school time to work on materials for any contest unless the contest is within the context of the instructional program, and it does not distract, but enhances the objectives of the course.
