# HONORS

The Board of Education directs the Superintendent to devise administrative procedures whereby students are honored for outstanding performance in curricular and co-curricular activities.

**Adopted: November 9, 1987**

## HONORS

In order to be eligible to have his/her name published as a member of the Honor Roll group:

1. A Junior High School student must have all "A's" to be eligible for the Honor Roll. A Senior High School student who maintains a 3.75 average or better for the quarter will be placed on the Honor Roll for that grading period.

2. A Junior High School student with a "B" grade average will be listed on the Honorable Mention List. A grade of "D" in any subject automatically eliminates the student from the Honorable Mention List, regardless of the grade average. The Senior High School does not have an Honorable Mention List.

3. Honor Rolls are not maintained for the elementary school students.

4. Students who have "incompletes" on their report cards will not be considered for either list.
